

An aerial photograph of a village nestled in a valley. A red line, consisting of several connected segments, outlines a specific area within the village. This area includes several buildings with red-tiled roofs, some of which are highlighted with red dots. The surrounding landscape is lush with green trees and vegetation. In the background, there are rolling hills and a winding road. The overall scene depicts a rural or semi-rural setting.

An aerial photograph of a village nestled in a valley. A red line, consisting of several connected segments, outlines a specific area within the village. This area includes several buildings with red-tiled roofs, some of which are highlighted with red dots. The surrounding landscape is lush and green, with dense forests and rolling hills in the background. The red line and dots likely indicate a specific zone of interest or a boundary for a particular project or study.

An aerial photograph of a village nestled in a valley. A red line, consisting of several connected segments, outlines a specific area within the village. This area includes several buildings with red-tiled roofs, some of which are highlighted with red dots. The surrounding landscape is lush and green, with dense forests and rolling hills in the background. The red line and dots likely indicate a specific planning or development zone.
